Attorney Docket No.: 01CON294P-CIP

Application Serial No.: 09/663,002

REMARKS

This is in response to the Office Action, dated March 11, 2004, where the Examiner has rejected claims 1-34, 37, 40-43 and 46, and has objected to claims 35, 36, 38, 39, 44, 45, 47 and 49. Applicant acknowledges and appreciates the Examiner's statement that claims 35, 36, 38, 39, 44, 45, 47 and 48 would be allowable if rewritten in independent form. By the present amendment, claims 32, 34-35, 37-39, 41, 43-44 and 46-48 have been cancelled, claims 1, 13, 17, 31, 33, 36, 40, 42 and 45 have been amended, and new claims 49-69 have been added. After the present amendment, claims 1-31, 33, 36, 40, 42, 45 and 49-69 are pending in the present application. Reconsideration and allowance of pending claims 1-31, 33, 36, 40, 42, 45 and 49-69 in view of the following remarks are respectfully requested.

Rejection of Claims 1-34, 37, 40-43 and 46 under 35 USC § 103(a) A.

The Examiner has rejected claims 1-34, 37, 40-43 and 46 under 35 USC § 103(a) as being unpatentable over Jacobs, et al. (USPN 5,778,338) (hereinafter "Jacobs") in view of Gersho, et al. (hereinafter "Gersho"). Applicant respectfully disagrees; however, in order to expedite the prosecution of the present application, applicant has made the following amendments.

Applicant has amended claim 31 to include all of the limitations of original claim 31 and original claim 35 and its intervening claims, prior to previous amendment, except claim 33 which recites "transmitting said bits to a decoding system." Applicant respectfully submits that because the Examiner had found claim 35 in condition for allowance, in the previous office action, if rewritten in independent form; therefore, claim 31, as amended, should be allowed.

Further, new claim 62 includes all of the limitations of original claim 31 and original claim 36 and its intervening claims, prior to previous amendment, except claim 33 which recites

In addition, new claim 65 includes all of the limitations of original claim 31 and original

claim 39 and its intervening claims, prior to previous amendment, except claim 33 which recites

"transmitting said bits to a decoding system." Applicant respectfully submits that because the
